

Product Name : News Rank

Team Name : Royalty Inc.

Sprint Completion Date: 05/16/17

Revision Number : 1.0

Revision Date : 05/01/17

Goals:

Sprint two is based around gathering and interpreting data, it also includes experimenting with different ways to display this information to the user.

Task Listing:

User Story 1: As a developer I want to be able to aggregate the data from user searches to form conclusions from user input

1. Link Django and PostgreSQL
2. Link Heroku and PostgreSQL

User Story 2: As a user I would like to visualize the sentiment data from Twitter [L]

1. Build a graph based on TweetPys NLTK returns.

User Story 3: As a developer I want to create a live feed to see the primary source of the data

1. Link twitter feed into UI
2. Grab the proper tweets based on TweetPys analysis

Team Roles:

Andrew: Scrummaster / developer

Sukhpreet: Developer

Luc: Developer

Jen: Developer

Froy: PO/Developer
