

Product Name : News Rank

Team Name : Royalty Inc.

Sprint Completion Date: April 28th 2017

Revision Number : 1.0

Revision Date : May 15 2017

High Level Goals:

These goals includes creating our stack, getting our basic website up and running, accepting user input, and return data from social media based on user input.

Task Listing:

User Story 1: As a developer I want to make a basic layout for the website

1. Have a search bar in the UI
2. Have a place for a twitter feed.

User Story 2: As a developer I want to have a search bar because I want to be able to search through topics.

1. Get user text input
2. Use google's POST and GET to grab search results

User Story 3: As a developer I want to be able to scrape text from Twitter and Facebook because we want to analyze it.

1. Learn TweetPy
2. Integrate TweetPy into Django

Team Roles:

Andrew: Scrummaster / developer

Sukhpreet: Developer

Luc: Developer

Jen: Developer
